IDU Holds the 10th Dies Natalies and the Symposium of IDU Alumni Association

Rector of IDU Lieutenant General of Indonesia Armed Forces Dr. Tri Legionosuko, S.IP., M.AP, opened the 10th Dies Natalies of IDU, since it was founded on March 11, 2009, at the Dining Hall of Indonesia Defense University, in Sentul IPSC complex. Monday (11/3).

The establishment of IDU according to the Rector of IDU began with two faculties namely the Defense Strategy Faculty (FSP) and the Defense Management Faculty (FMP) in 2009 and now even 10 years IDU already has 4 faculties with 17 study programs, the development of IDU as an "A" And increasingly exist with its own characteristics such as conducting education and vocational education and professional education in the field of Defense and Defense.

IDU also contributes to the nation and the State, including providing disaster management and other defense science supplies to answer the various challenges facing by the Indonesian nation.

It was said by the Rector of IDU that, IDU is a university that should be proud of, as a higher education institution that provides full scholarships to its students besides IDU also produces State Defense Intellectual cadres as well as candidates for professional, innovative civil-military leaders and have values the value of struggle and struggle to synergize the welfare needs of the community with defense and defense.

Still in the framework of IDU's dies natalis, there was also a gathering of IDU academic community Alumni Association with the theme "Strengthening IDU Alumni as State Defense Intellectual Cadres", held at the 2nd floor of the IDU Auditorium building, State Defense Center Campus, Sentul IPSC complex. Thursday (3/14).

The Symposium began with remarks from the chairman of the IDU alumni association Heru Budiwasesa, SH, M.Sc (Han), who said that as an IDU alumni it is a matter of pride but IDU alumni must be able to become State Defense Intellectual cadres, besides IDU's Alumni role and opportunity is as a nation unifier.

Rector of IDU represented by Deputy Rector I Academic and Student Affairs of IDU Major General of Indonesia Armed Forces Sudibyo, S.E., D.S.S., M.Sc said IDU Alumni as well as State Defense Intellectual

associations was enlivened by Nusantara choirs from the IDU Corhot-10 academic community, the submission of certificates of State Defense Intellectual Cadres to IDU Alumni, and discussions related to State Defense presenting by 2 speakers namely Director of State Defense Directorate General of Defense Potential Ministry of Defense represented by the Head of Sub-Directorate of Education at the Directorate of State Defense Directorate General of Defense Potential of Ministry of Defense Marine Colonel (K) Dra. Lily

Cadres must be able to feel their presence in the community and be able to socialize State Defense to all levels of society.

IDU Alumni is very strategic in developing the nation as a whole in order to realize national unity as a synergistic contribution between alumni and academic society of IDU.

This symposium as a network and facilitator between alumni and the academic community of IDU, fosters a sense of care among the academic community and develops ideas to build academic society, communities and nations.

The Symposium of IDU alumni

Limanovlava, M.Sc (Han) alumni of IDU Corhot-2 on the topic "Implementation of IDU Alumni in Disseminating State Defense" and Researcher at the Political Research Center of Indonesian Institutes of Science (LIPI), Diandra Megaputri Mengko, M.Sc (Han) Alumni Cohort-2 with the theme "State Defense, Intellectual Cadres, and IDU's Alumni ", moderated by Lieutenant Colonel Caj. Dr. G. Royke Deksimio, M.Sc (Han).

In this discussion session, the first speaker explained the importance of the State Defense which included the constitutional foundation, the role to build the values of the State Defense, Achievements and

National goals and to maintain the Sovereignty, Safety and Unity of the Nation (REPUBLIC OF INDONESIA). Five foundational values of state defense that supposed to be owned all Indonesian citizens and the implementation of the State Defense by IDU Alumni in the life of the community, nation and state.

While in the second presentation the speaker explained the need to defend the country, the Contemporary Dynamics of Strategic Environment, the Dynamics Strategic Environment in Indonesia associated with the potential for the emergence of military and non-military threats, the dynamics of diverse threats.

In addition to the discussion activities, it was also developed with question and answer sessions between Symposium participants and resource persons, reflection on the State Defense from various aspects and concepts of the State Defense through 4.0 cyber development, which was answered by the resource person.

SPECIAL REPORT

IDU graduated 361 Masters of Defense and Intellectual State Defense Cadres

Indonesian Defense Minister General of Indonesia Armed Forces (Ret.) Ryamizard Ryacudu accompanied by the Rector of the Defense University Lieutenant General of Indonesia Armed Forces Dr. Tri Legionosuko, S.IP., M.AP, graduated 361 Masters of Defense and at the same time as Intellectual State Defense Cadres, located in the Sports Hall of IPSC building, in the Sentul IPSC area, Bogor, West Java. Thursday (3/21).

Defense Minister of Republic of Indonesia said that the Defense University Alumni are the Ministry of Defense's strategic "Think-Tank", so that alumni are required to be professionals in the field of Defense and to be a true and accountable reference source and able to answer any questions from community members and state defense security stakeholders. Professionals about the concept of national defense governance, and must be reliable and proud ambassadors of the defense ministry.

According to Minister of Defense, the success of the implementation of the National Defense system is measured by the extent to which the State is able to counteract various forms of threats both physical and non-physical that can disrupt the safety of the nation; State sovereignty and territorial integrity of the Republic of Indonesia, the current condition is based on analysis and observation of the symptoms and turmoil of the strategic environment, the Republic of Indonesia is facing 3 (three) dimensions of threat, namely, the threat which is not yet real; real threats and non-physical threats to the mindset of all Indonesian people. Of all the threats, the threat to the "MINDSET" of the Indonesian Nation is the most dangerous threat at this time. The threat of this mindset can manifest into various forms of threats, such as the threat of Terrorism, Rebellion and Drugs

that can even affect the Open War.

Minister of Defense affirmed, in order to counteract the swift currents of radicalism and religious extremism, the steps of the soft power approach have been taken through the concept of socializing the strengthening of national identity through the cultivation of values of state defense that are synergistic and integral-comprehensive, through socialization that is built so that the entire people Indonesia has the power of MINDSET and has the identity of PANCASILAI which is not easily affected by invitations that use the guise of Religion which is a strength of endurance and deterrence of invitation and the doctrine of Radical Understanding, through Strengthening State Defense Awareness which began at an early age up to Universities. So that children and young people who have not been affected will be increasingly strengthened so that they are not easily influenced by Radical Ideology.

The Rector of IDU said that as an alumni of the Defense University, They have enormous power to contribute and participate in the Indonesian nation-building process.

The current challenge is that the world enters the era of industrial revolution 4.0 which in addition affects the life order that relies on technology, including in the field of defense. Added by the Rector of IDU, technological advances in the main weaponry system besides requiring human resources to operate, it also requires a national defense strategy that is far

different from conventional defense strategy. The forms and patterns of national security threats and state sovereignty are increasingly complex and complicated. As a Defense Master, you must be able to contribute to the current situation.

On the occasion of The 2019 Academic year Phase I graduation, all graduates received scientific oration by Lieutenant General (Ret.) Prof. Dr. Syarifuddin Tippe, former Rector of IDU with the title "Defending the State in Facing the Industry 4.0 Education Sector". This scientific oration will add to our insights in the State Defense faced with the current life situation in the industrial era 4.0.

After the formal meeting of IDU was closed, the event continued with a series of graduation traditions in the form of pronouncement of the Alumni Promise and the submission of IDU Alumni Pins to be held at the IDU State Defense Campus.

Postgraduate Graduation Period I Academic Year 2019 was attended by invited guests of Echelon I and II officials in the Ministry of Defense, IDU's Former Rectors, IDU's Professors, IDU's Echelon I and II Officials, IDU's Board of Trustees, Infrastructure Expert Staff of Ministry of Research, Technology and Higher Education of the Republic of Indonesia, IDU's Academic Senate, defense attaché from a friendly countries, Indonesia Armed Headquarters and Indonesia Armed Forces, graduates accompanied by graduates' families as well as other invitees.

Diplomacy Study, Dr. Ian Montrama, M.Sc (Han) and Lecturer Adviser to the Geopolitical and Geostrategic Study Dr. Indra Kusumawardhana.

In this visitation activity, the students of Pertamina University were invited to get to know IDU more through the detachment of Defense University profile which depicted the beginning of the process of IDU' establishment, the educational program held, collaboration with domestic and foreign universities to facilities that support the education and teaching process in IDU.

In addition to the screening of the profile, this activity was followed by a question and answer session between Pertamina University students and speakers from representatives of faculties at IDU,

ranging from the selection and acceptance process to IDU's Masters Defense Science postgraduate program, the difference in energy security study programs at IDU and Pertamina University. the challenge of New Renewable Energy (EBT), EBT socialization in the social environment and the work of the Peace and Conflict Resolution Study Program (DRK) of IDU as contributors to conflict resolution in Indonesia.

Related to the discussion about EBT, the prospect of graduation is not only about energy security, but also towards energy resources management, social challenges that need to be solved and studied through technological innovation so that it becomes a future breakthrough.

SPECIAL REPORT

IDU Students Study Visit To Disaster management education and training center of National Disaster Management Agency's

IDU students from the National Security Faculty Disaster Management Study Program (FKN) conducted a study visit to the National Disaster Management Agency's Disaster Management Education and Training Center (BNPB PB) led by Disaster Management Study Program Secretary Colonel Kes Dr. IDK Kerta Widana, SKM., MKKK in the Sentul IPSC area. Friday (4/1).

Disaster Expert Association (IABI) and IDU. The success of this event requires the synergy of various parties who are concerned about disaster management in Indonesia, it is hoped that Indonesia will be more prepared and resilient in facing disasters in our environment.

On the same occasion, Head of National Disaster Management

National Disaster Management Agency acting as one of the guiding elements, IDU is expected to be a multiplier for PB in Indonesia, so that some Disaster Management Lecturers are National Disaster Management Agency officials who are experts in Disaster Management.

Furthermore, in this study visit, the students received exposure from several BNPB PB Training Center lecturers on an overview of the situation and risk of disasters in Indonesia, Job Description of BNPB PB Training Center, logistics management, and field review of PB BNPB Training Center facilities including simulator rooms, disaster biorama, equipment disaster early warning system, remote training with e-learning / teleconference system and various other facilities owned.

The activity was held to start the second semester lecture in 2019. In his speech Disaster Management Study Program Secretary said that the purpose and objective of the study visit to PB BNPB Training Center was to gain knowledge of postgraduate students in Disaster Management Logistics and to get to know more closely disaster management facilities owned by PB BNPB Training Center. Besides that, through this visit, students were also expected to do problem shopping for the thesis research plan which would be taken as the final task of the learning process in the disaster defense master program.

Agency's Disaster Management Education and Training Center represented by Head of Curriculum and Development Training, Drs. Hermana welcomed the visit, especially the history of the formation of IDU Disaster Management Study Program, one of which was initiated by BNPB, and has a legal umbrella in the form of MOU between the Ministry of Defense and National Disaster Management Agency. Based on the legal umbrella of

With the learning system in the current training center that has been nationally accredited by LAN and International through ISO, in the future PB BNPB Training Center will go to world class 2025 (World Class). Through education and training, it is hoped that Indonesia will be increasingly prepared to face disasters with a new paradigm of living harmoniously with disaster risk (living harmony for risk disaster).

Disaster Management Study Program Secretary also said that in 2019, IDU has been appointed to carry out activities through the 6th Annual Scientific Meeting (PIT) of Disaster Research which is an international scale event. This activity is a form of collaborative activity between National Disaster Management Agency - Indonesian

SPECIAL REPORT

Collaboration between the IDU Library and the Indonesian National Library in order to support the realization of national defense

The library can be interpreted as a set of various information that is used by humans and developed from time to time. According to its function, the library is a place to provide various information, both related to the economy, social and politics, and other information.

Library of Higher Education Institution can be said to be the heart of Higher Education because Libraries have an important role in the world of education in Higher Education, where libraries have a very vital role as material resources for research, as a means of providing teaching and research materials to meet the information needs needed by the academic community.

As the heart of the Defense University, the IDU Library has a very important role in realizing the Defense University's Vision and Mission. The IDU Library is one of the technical implementation units at the Defense University which together with other units contribute to realizing the Tri Dharma of Universities. As a technical implementation unit from the Defense University, the IDU Library together with other units helped realize the Tri Dharma of Higher Education through activities to select, collect, treat and disseminate information sources to users, as well as the academic community. In addition to carrying out its functions and roles as a library service, it also carries out a role in improving the quality of education in the field of defense and defending the country in accordance with applicable laws and regulations.

To improve service to users, as well as complementing the shortcomings in a library,

each library needs to carry out cooperation between related agencies, or institutions providing information services. In this case the collaboration with the National Library of Indonesia is because the National Library of Indonesia is a facilitator and coach for all libraries in Indonesia. For Universities, cooperation with the National Library of Indonesia, provides benefits that are able to expand access, improve the quality of human resources and

Library of Indonesia, and obtain information and assistance in library materials that are not in our library, especially in defense.

The IDU Library in realizing the Vision and Mission of Defense University has carried out cooperation with the Indonesian National Library in the form of signing the MoU and signing the Cooperation Agreement (PKS). The signing of the MoU between the IDU Library and the National Library of Indonesia was held on

the utilization of knowledge information resources to support the implementation of the Tri Dharma College.

In order for the IDU library to develop according to what is stated in the standards of the college library, the IDU library needs to carry out cooperation with information providers. The main cooperation that must be carried out is cooperation with the Indonesian National Library. Through Collaboration with the National Library of Indonesia, we can find out about the development of libraries in this modern era, and can access digital information networks contained in the National

January 18, 2018, which took place at the Defense University Rector Building, Sentul, Bogor.

According to the Rector of IDU, the signing of this collaboration as well as facing an increasingly competitive information and globalization era, universities in Indonesia, are required to improve their quality through Tri Dharma in order to be able to compete with foreign universities, especially universities that have achieved world-class university.

While Drs. Muhammad Syarif Bando, M.M. The Head of the National Library of Indonesia said that one of the functions of the National Library of Indonesia is as a library network center,

as a form of library network collaboration between libraries and institutions in the digital era, on this occasion the head of the National Library gave high appreciation to IDU in institutional structure, Resources Humans, as well as special facilities and infrastructure in the field of technology, because the IDU Library in providing services to visitors has had digital-based facilities and infrastructures that adapt to the development of the modern era. The agenda for the signing of the MoU includes the development of Human Resources in the field of libraries in IDU and the National Library, Development of Information and Communication Technology, Development of National Master Catalog Data (KIN) and the Indonesia One Search digital repository (IOS), holding Library library data exchange and inclusion backline on IDU's website and National Library, carry out development and joint use of library collections, hold scientific meetings, research, and joint publications in the field of libraries, carry out collection and preservation of works of printed works of record (KCKR) and management and organization of the Library.

With the MoU, IDU students and academics can access information relating to the defense and resilience of the State that is owned by the National Library, both in the form of printed and non-printed materials. Where we know that library materials needed by students related to defense are still very few in circulation.

The memorandum of understanding (MoU) will become a legal umbrella in the operational and conceptual implementation activities of each

of these agencies, and is the responsibility of both parties in the effort to empower human resources. This will provide great benefits for both parties and has a high strategic value in achieving improved quality of human resources in the field of defense.

To further strengthen cooperation relations between the Defense University and the National Library of Indonesia, then on December 6, 2018, Rector of IDU Lieutenant General of Indonesia

Bogor.

Lieutenant General of Indonesia Armed Forces Tri Legiono, said that currently IDU is the biological child of the National Library. We realize that college libraries must improve. Facilities and infrastructure are also adequate such as adequate ICT needs and qualified human resources. It is expected that IDU can build an information network and connect libraries in universities that will provide a huge advantage for the user,

Armed Forces Tri Legiono, has carried out a reciprocal visit to the Indonesian National Library office on Merdeka Selatan St., Central Jakarta. The Head of National Library Muhammad Syarief Bando welcomed the reciprocal visit made by the Rector of IDU where previously the National Library had signed a joint memorandum of understanding (MoU) between IDU and the National Library, January 19, 2018 at IDU, Sentul,

namely the ease of accessing library collections so that they can be utilized optimally by the users, both now and in the future.

The establishment of cooperation between the National Library of Indonesia and IDU can improve the development of the Library, especially for IDU who is working to achieve its vision in 2024 to become a world-class university.

SPECIAL REPORT

IDU Holds a Book Launching “Archipelago Leadership” by Professor of IDU Admiral of Indonesia Armed Forces (ret.) Dr. Marsetio

IDU held the launch of the book “Archipelago Leadership” the work written by Professor of the Defense University (IDU) Admiral of Indonesia Armed Forces (ret.) Dr. Marsetio. As the Keynote Speech of the Indonesian Minister of Defense General of Indonesia Armed Forces (Ret.) Ryamizard Ryacudu accompanied by Rector of IDU Lieutenant General of Indonesia Armed Forces Dr. Tri Legionosuko, S.IP., M.AP, in the Auditorium Building of the State Defense Campus of the Defense University (IDU) Sentul-Bogor, West Java. Friday, (22/02).

number of islands reaching 17,499 islands and an area of almost 6.5 million km² and a coastline of around 99,149 kilometers. The geographical position is very strategic, located between two oceans and two continents, being part of the Sea Lines of Communications (SLOCs) and the Sea Lines of Trade (SLOT) of the world economy. Its population is around 257 million, coming from 1,340 ethnic groups and 1,158 regional languages, with different customs, so that the level of welfare has not been fully distributed.

especially in the leadership in the maritime field.

The Minister of Defense of the Republic of Indonesia in his message conveyed, the book “Archipelago Leadership”, a book that is very relevant and very important to be used as a reference in an effort to form Nusantara Leaders cadres amid the dynamics of the development of a strategic environment that is increasingly complex and unpredictable.

A leader must certainly have strong commitment and integrity based on the foundation of noble values and

Admiral of Indonesia Armed Forces (ret.) Prof. Dr. Marsetio said Leadership is one of the studies that is always interesting to discuss and discuss, because it concerns the sustainability of an organization, institution, company, or even the state.

The success of a country in achieving its national goals is largely determined by how its leaders at various levels carry out their leadership.

This book discusses leadership in Indonesia, associated with geographical conditions characterized by maritime with the

This book also discusses the style of leaders and leadership of the Indonesian Presidents, especially those related to maritime affairs. In addition, the roots of leadership in the archipelago were also discussed, by taking leadership samples on Java, as the largest population of the Indonesian population. Javanese leadership traced its history, values and philosophies from the Javanese-Hindu kingdom to the days of the Mataram-Islamic Empire, and in modern times. In addition, it was also exemplified how the pre-Indonesian archipelago leaders in carrying out their leadership,

firm in his belief in achieving a noble goal. The true leader must also have the principles of goodness and truth that he has believed in, so that he is not easily shaken to keep going in the face of challenges and obstacles.

Admiral of Indonesia Armed Forces (ret.) Prof. Dr. Marsetio is known as a Leader and a Scholar of Indonesia Armed Forces, in his blood flows a harmonious blend of a Practitioner as well as an academic; he was once the highest leader in the Indonesian Navy as well as a Professor, this is a perfect combination and combination to be a good writer. Armed with his experience in the

of Tourism, Minister of Energy and Mineral Resources of Republic of Indonesia Ministry, PT Arwana Citramulia Tbk., PT Sinar Mas, Indonesian Bureau of Classification (BKI), Former Public Policy Committee (KKP), and Letting AAL 26/81.

At the end of the event the Book Launching “Archipelago Leadership” Also carried out the submission of kolintang musical instruments by the General Chair of the Central Board of Governors (DPP) of the National Kolintang Persons Association (PINKAN) Indonesia Penny Iriana Marsetio.

In his remarks, the Chairperson of the Central Board of Governors (DPP) of the National Kolintang Association (PINKAN) Indonesia was optimistic that the Kolintang musical instruments would be recognized by the United Nations Educational Scientific and Cultural (UNESCO) as a world cultural heritage.

According to Ms. Penny, kolintang which is a traditional musical instrument from North Sulawesi is Indonesia’s cultural heritage that deserves UNESCO recognition. Ms. Penny said, PINKAN Indonesia is proud that the archipelago has a diversity of cultures and traditions reflected in Bhinneka Tunggal Ika.

field combined with the theories of leadership he learned, making this book even more important to take its essence as a valuable provision for the young generation of Indonesia in this millennial era.

Defense Minister of Republic of Indonesia hopes that with the publication of this book, those who read it will appreciate the values of the authenticity of a leader whose essence is character strength. 5%, 5% general knowledge and 10% decision making ability.

As written in this book, the Future Leader of the Archipelago in the future must be prepared to guide the development process in Indonesia on all fronts towards a just, and prosperous Indonesia. Indonesian leaders must also continue to have the identity based on Pancasila and the 1945 Constitution, they carry out the mandate to maintain the integrity of the Republic of Indonesia as a non-negotiable price of death. Archipelago leaders must also be able to continue to maintain and preserve the Pancasila and the 1945 Constitution, because Pancasila and the 1945 Constitution contain mandates and noble values typical of the Indonesian nation which is the main foundation to remain intact in our beloved Republic of

Indonesia. Before the event was closed, it continued with a review of the book by Dr. Andi Widjanto who declared maritime with the 4.0 industrial revolution.

In addition to being attended by the Indonesian Defense Minister and Officials at the Defense University (IDU), there were also officials from the Secretary General of the Ministry of Defense First Admiral of Indonesia Armed Forces Agus Setiadi SAP, MA and echelon I officials at the Ministry of Defense and IDU, former Rectors of IDUs, IDU professors, Former Indonesia Navy Chief of Staffs, Officers of Indonesia Armed Forces in the Indonesia Armed Forces Headquarters, Ministry of Maritime Affairs officials, Ministry

IDU Participated in the Indonesia International & Training Expo 2019

To further introduce IDU to the wider community, IDU as a Post-Graduate State University (S2) that provides full scholarships during education at IDU, has participated in the 28th Indonesia International Education & Training Expo's prestigious exhibition. The largest tertiary education exhibition in Indonesia, featuring leading universities from national and abroad, runs from 14 to 17 February 2019.

The Indonesian International Education & Training Expo 2019 or ILETE 2019 exhibition is a major event featuring the most advanced universities (State, Private, Official, and Religion) and training institutions and Indonesia Armed Forces institutions that are people's favorites. By Mr. Bowo Irianto, representing the Head of the DKI Jakarta Education Service officially opened this exhibition with the enthusiasm of the ILETE 2019 participants.

In ILETE this year, IDU socialized the 2019/2020 Postgraduate scholarship program which will open in March 2019. Not only that, the IDU Exhibitor team also explained many things related to IDU's education period and 4 (four) faculties which were included, including; Faculty of Defense Strategy, Defense Management Faculty, National Security Faculty, and Defense Technology Faculty. IDU which is currently headed by Rector of IDU Lieutenant General of Indonesia Armed Forces Dr. Tri Legionosuko, S.I.P., M.A.P, provided an opportunity for visitors both from the Indonesia Armed Forces / Indonesia Police Forces, Civil Servant and public to obtain learning information at IDU.

Through the theme carried out by ILETE 2019, namely "Preparing the Characteristic and Superior Millennial Generation" IDU actively

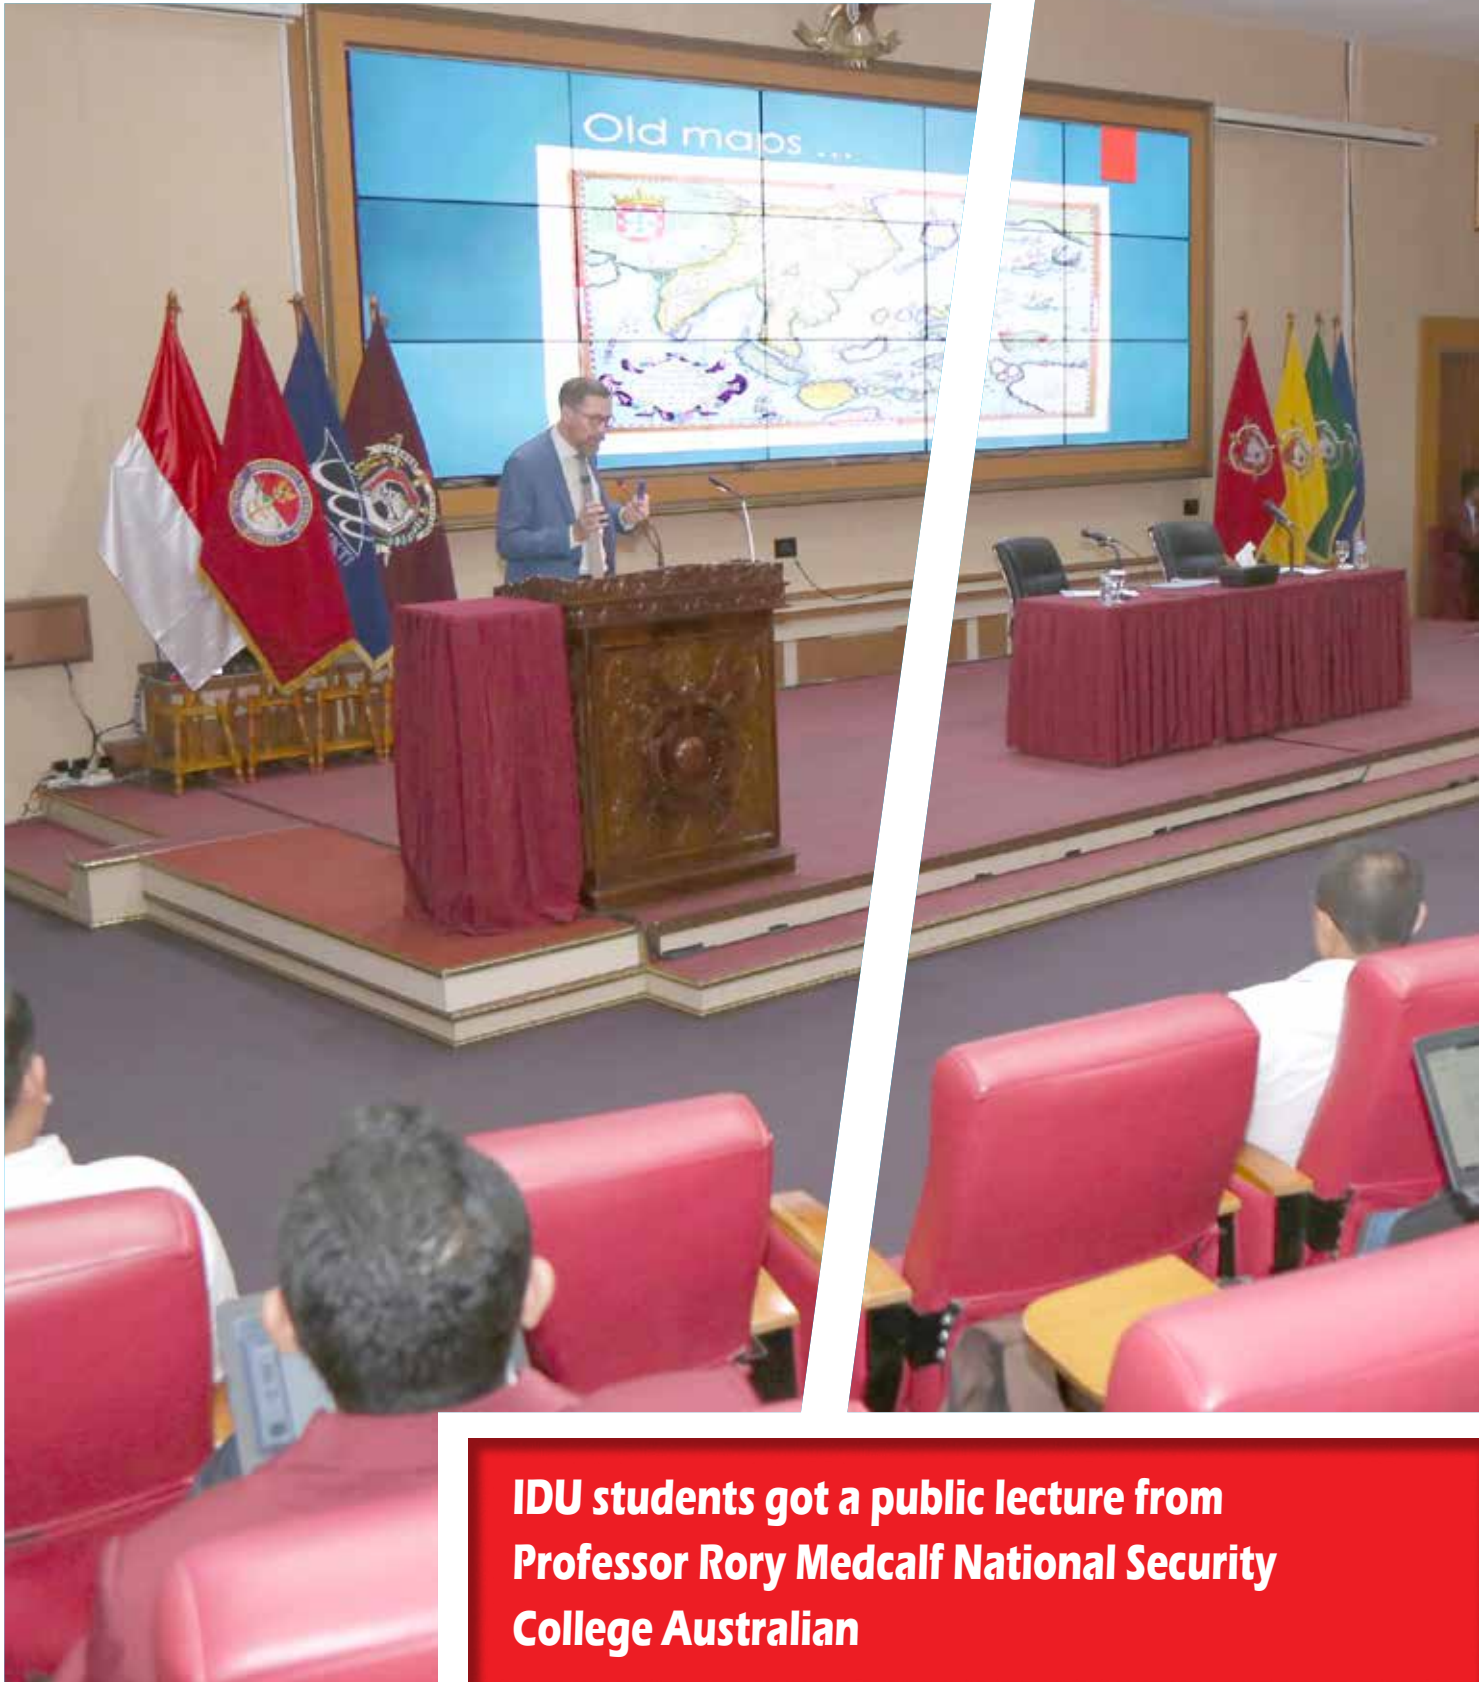

shows seriousness in this event by providing extensive education and insight to IDU booth visitors by providing complete information as an accredited "A" State University under the auspices of Ministry of Defense and Research and Technology Ministry of Education.

Defense University students also provided many tips and tricks for these scholarship enthusiasts through a talk show that would be held at this event on Friday, February 17, 2019 at 10.00 WIB.

In addition to the existence of the IDU exhibition booth, there were various exhibition booths related to other education and training from foreign universities such as Turkey, Russia, Japan, China, Spain, Philippines, Malaysia, Singapore, and Australia. As well as companies providing technology and data on digital-based education support, laboratory equipment, educational aids, educational software, and so forth.

SPECIAL REPORT

**IDU students got a public lecture from
Professor Rory Medcalf National Security
College Australian**

Prof. Rory Medcalf from the National Security College, Australian National University was accepted by the Rector of IDU represented by the Deputy Rector I IDU of Academic and Student Affairs Major General of Indonesia Armed Forces Sudiby, S.E., D.S.S., M.Sc, before starting his general lecture with the theme “Prosperity and Security Australian Views of Indo-Pacific”, on Wednesday (20/2).

In general lectures, Prof. Rory Medcalf explained the notion of systems strategy including networking, policy, capabilities, geographic strategies for power relations, and progress or national protection as well as for link-trade, investment, investment, infrastructure-relationship security partnerships.

The background of the formation of the Indo-Pacific due to maritime relations from two different marine areas, economic interests as a strategic step, Indo-Pacific as a region of multipolarity (shared space between countries in various regions), is considered very important (Center of Gravity), Indo-Pacific as a quick connecting tool for the main geo-economic road.

Explained by Prof. Rory Australia’s geographical position in the world from the prehistoric era of Australia is part of the dark history of Asia, entering the colonial era and beyond, beginning with the Pacific war from 1941-1945 which caused limited relations with countries in the Asian region.

In 1993 as the starting point of Australia’s stage to build cooperation with countries in the Asian region, until 2005 through the East Asia Summit; The US-India nuclear partnership, Australia is back in the Indo-Pacific, followed by the second stage with the US pivot: Indo-Pacific in part, in 2013 Origins of BRI; The

Australian Defense White Paper goes officially Indo-Pacific, until 2018 Indonesia guides ASEAN to the Indo-Pacific stance.

Australia’s position in regional strategic competition also covers Geopolitical aspects, Mutual Aspect supports minilateral regulatory networks (US, Japan, India, Indonesia, France and others) and inclusive multilateralism designed to respect the rights and interests of all countries (East Asia Summit, other ASEAN-centered institutions) coverage for more Australia-Indonesia partnerships, the Geostrategic Aspect in terms of Australia’s geographic importance in regional strategic dynamics; distance and closeness, in addition to the aspect of awareness of the

maritime domain as advantages and responsibilities in maritime supervision, including for allies and partners.

Prof. Rory added, to develop the Indo-Pacific region a strategy is needed including Stability, prosperity, predictability, rules, respect, non-coercion, Capabilities, interests, willingness to cooperate Diplomacy (Willingness to work together Diplomacy and prevention), capability (Ability) and credibility.

The public lecture was marked by questions and answers between the IDU academic community and the speakers covering security issues in the Indo-Pacific region related to the construction of bases in the Papua New Guinea region.

IDU Holds Technical Coordination Meeting for Academic Year 2019

Defense University (IDU) held a Technical Coordination Meeting (Rakornis) of IDU Academic Year 2019, with the theme of increasing professionalism and synergy between the University towards the World Class Defense University at the 2nd floor of Auditorium of the State Defense Campus, IPSC Complex, Sentul. Wednesday (2/13).

Technical Coordination Meeting of IDU Academic Year 2019 was opened by Rector of IDU Lieutenant General of Indonesia Armed Forces Dr. Tri Legionosuko, S.IP., M.AP by presenting three speakers consisting of Director General of Science and Technology Resources and Higher Education Ministry of Research and Technology Prof. Dr. Bunyamin Maftuh, M.Pd., MA with the topic on credit figures for functional academic commissions, second resource person from the Deputy of Human Development, Community and Culture of Indonesian Ministry of National Development Planning (PPN / BAPPENAS) Dr. Ir. Subandi Sardjoko, M.Sc. which discusses the portrait and prospects for the development of higher education, and for the three speakers, namely the Head of the Department of Human Resources of the Ministry of Administrative and Bureaucratic Reform of the Republic of Indonesia (PAN-RB) Dr. Ir. Setiawan Wangsaatmaja, Dipl. SE, M.Eng, which discussed Government Regulation No. 49 of 2018 First Aid Management.

In his remarks at the opening of the Technical Coordination Meeting of the Academic Year 2019, the Rector of IDU conveyed increasingly sharp global competition, and seemed to not recognize the territorial boundaries of the State which had hit all aspects, the field of education, including education engaged in fighting in order to participate for the progress of the nation.

This condition is expected to continue, so that it must be speakers and Technical Coordination Meeting participants, closing the

addressed with strategic steps and rapid action. The development of information technology has made the world feel smaller. The speed and accuracy of taking action is the key to success.

It is recommended by the Rector of IDU to be able to make quick and precise decisions IDU must renew and have many partners. For this reason IDU will continue to open to ensure, remain confident and always open to receiving input. This rationale that makes the choice to support the achievement of IDU's vision and mission in 2024 can be obtained.

In accordance with the theme in the Technical Coordination Meeting, it is expected to be able to provide encouragement or encourage the implementation of activities in accordance with the duties and functions of IDU in preparing the intellectual cadres of the State of Defense. By presenting speakers in accordance with their fields.

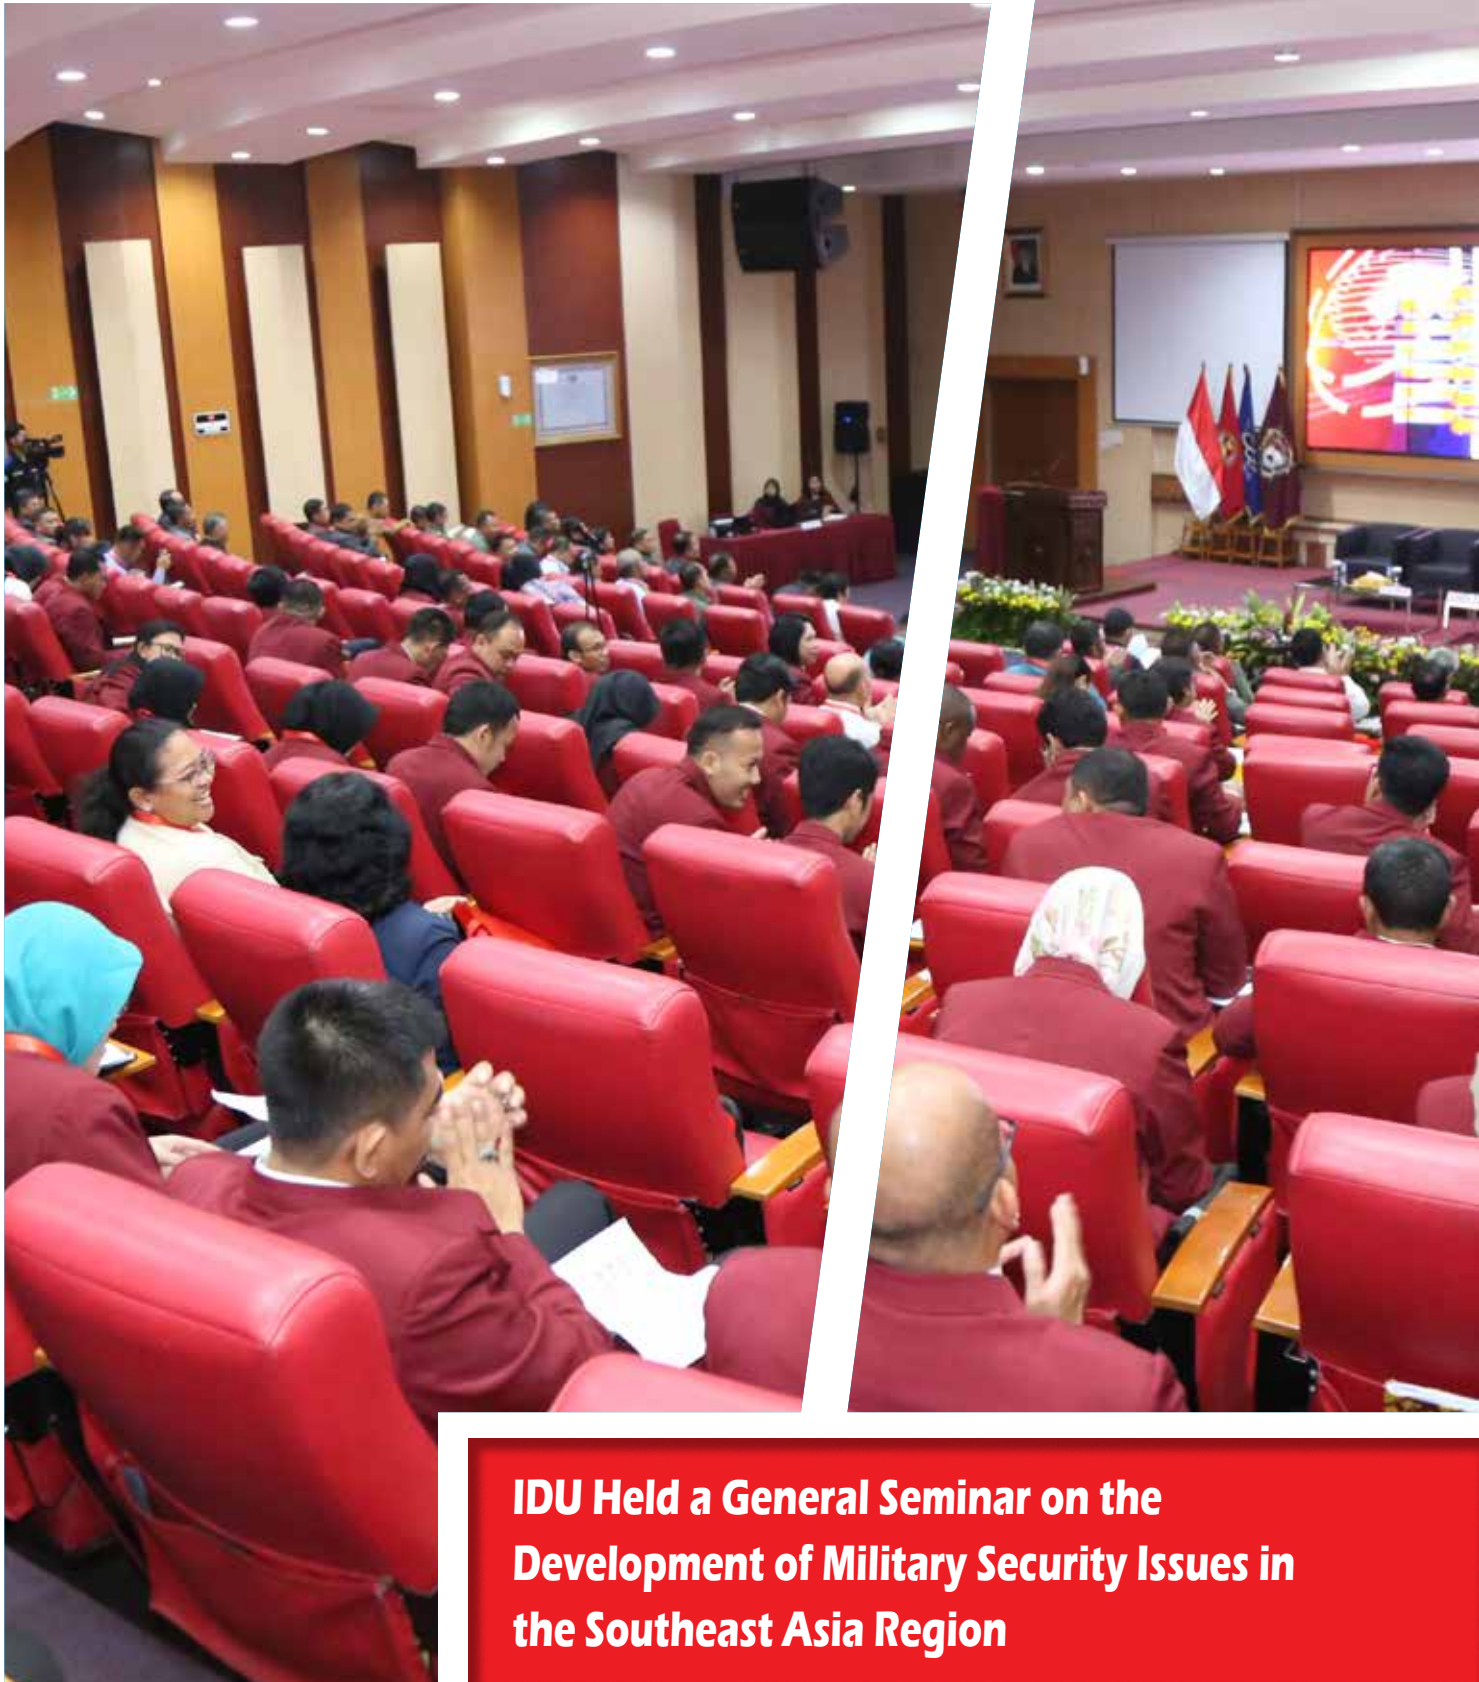

IDU Technical Coordination Meeting Academic Year 2019, in addition to attending the opening with resource persons, there was also a question and answer session between

IDU Technical Coordination Meeting Academic Year 2019 held by the signing of the MoU between IDU and UB (Brawijaya University).

Before closing the IDU Technical Coordination Meeting Academic Year 2019 Rector of IDU said that the Technical Coordination Meeting activities had a very strategic role in the series of programs and activities. Through this Technical Coordination Meeting, it can contribute to the development of IDU, the discussions that have been delivered by the speakers in charge and the discussions carried out communicatively to answer questions raised by IDU.

IDU Technical Coordination Meeting activities were attended by all IDU echelon I, II, and III officials, invited invitations from the Ministry of Defense, Ministry of Research, Technology and Higher Education, University Partners, Ministry / Institution Officials, IDU Professors and Lecturers, Officials of Indonesian Military / Police Institutions, University of Brawijaya, Provincial Government / City Government / Regency Government and State-owned enterprises (BUMN), Regional owned enterprises (BUMD).

SPECIAL REPORT

IDU Held a General Seminar on the Development of Military Security Issues in the Southeast Asia Region

IDU through the Defense Strategy Faculty held a public seminar with the theme “Opening of the United States Naval Base in Papua New Guinea and Its Impact on Security Stability in the Southeast Asia Region”, located at the Second Floor of Auditorium building of IDU State Defense Campus, IPSC Complex, Sentul. Thursday (2/14).

The seminar was moderated by Lieutenant General of Indonesia Armed Forces (ret.) Dr. Yoedhi Swastanto, M.B.A, with the keynote speech of Rector of IDU Lieutenant General TNI Tri Legionosuko, S.IP., M.AP., which was read by the Dean of the IDU FSP Major General of Indonesia Armed Forces Dr. Hipdizah, S.Adm., M.Sc. The seminar presented speakers from the Expert Staff of Indonesia Armed Forces Commander First Admiral of Indonesia Armed Forces Anwar Saadi. SH., Head of Policy Analysis and Development Agency (BPPK) of the Ministry of Foreign Affairs Policy Assessment and Development Agency Dr. Siswo Pramono, Defense Strategy of Indonesia Defense Ministry Major General of Indonesia Armed Forces M. Nakir, S.IP, M.H, and Dean of Social Sciences Faculty of Indonesia University Edy Prasetyono M.I.S., Ph.D.

This seminar was opened by IDU Defense Strategy Faculty Dean Major General of Indonesia Armed Forces Dr. Hipdizah, S.Adm., M.Sc, representing the Rector of IDU, and in his speech said that this seminar activity was a medium of brainstorming and discussion among IDU students, resource persons, practitioners and academics, so as to improve the quality of IDU’s academic community’s understanding of the impact opening of Naval Base for stability in the Southeast Asia region, and especially for Indonesia.

Keynote Speaker Rector of IDU

on the topic of Development of Strategic Security and Environment in the Southeast Asia and Asia Pacific Region, stated that the establishment of military facilities aims to show America’s commitment to an “open and free Indo-Pacific” but the presence of military forces will affect security stability in the region Southeast Asia. This remembers geographically the distance of Papua New Guinea which is very close to the Southeast Asia Region so that if there is a military conflict, Southeast Asia will also be affected. In addition, increasing military capacity in Papua New Guinea will be seen as an indicator of deteriorating perceptions of security threats in the Southeast Asia region, which has the potential for a race to increase military power. In order to respond to the increasingly dynamic development of military security issues, efforts are needed to map potential security threats in the Southeast Asia region.

The seminar activity began with a presentation by the Expert Staff Coordinator of the Indonesia Armed Forces Commander First Admiral of Indonesia Armed Forces Anwar Saadi. SH., With the topic of reviewing the plan to open the United States base in Papua Nugini from the perspective of strategic intelligence, from his presentation that information on plans to open

a US base in Papua New Guinea, from a strategic intelligence perspective needs to begin with accurate data collection and facts for further analysis. Continuously and continuously, the results of which can be in the form of recommendations submitted to end users as material in decision making, conclusions from his presentation to anticipate strategic environmental developments in the Asia Pacific region, which affect Indonesia, hence increasing the capacity of military and defense diplomacy needs attention to continue to be improved.

For the second speaker, the Head of the BPPK of the Ministry of Foreign Affairs’ Policy Review and Development Agency Dr. Siswo Pramono, with discussions on the Perspective of the Indonesian Ministry of Foreign Affairs responding to the opening of the United States Naval Base in Papua New Guinea.

The third presentation by the Director General of Defense Strategy of Indonesia Defense Ministry Major General of Indonesia Armed Forces M. Nakir, S.IP, M.H with the title of the Defense Strategy Perspective Anticipating the Impact of the US Naval Base Presence in Papua New Guinea for Indonesia.

The last presentation was given by

Deputy Dean of the Faculty of Social Sciences of Indonesia University Edy Prasetyono M.I.S., Ph.D. with a discussion of Geo-political Assumptions in the Asia Pacific Region related to the Opening of the Naval Base of the United States in Papua New Guinea.

The seminar activity was colored by question and answer participants with resource persons, including the role of ASEAN to prevent armed conflict between the US and China in the Southeast Asia, Indonesia's strategy for counter-balance development of the Papua New Guinea naval base (short and medium term) and various other developments.

The seminar was attended by all IDU Echelon I, II, III, and Lecturers and invited by representatives of the Indonesia Armed Forces Staff and command school Lecturer, Secretary of the Army, Navy Staff and Secretary of the AU.

In addition to the public seminar by the Defense Strategy Faculty, the National Security Faculty also held a National Seminar with the theme "National Security from the

Presence of State Sovereignty and National Identity", held at Auditorium of State Defense Campus, IPSC-Sentul Complex. Wednesday (6/3).

The seminar was opened by the Rector of IDU represented by the Dean of the National Security Faculty Rear Admiral of Indonesia Armed Forces Dr. Siswo Hadi Sumantri, S.T., M.MT in his remarks and his keynote speech said, through this seminar it was hoped that it could contribute ideas to stakeholders in developing national security policies to strengthen the National Defense system. Strategic environmental change forces several countries in the world to make changes and rearrange the security system in order to safeguard their national interests.

The seminar activity presented speakers from the Ombudsman of Republic of Indonesia Members Prof. Andrianus Eliasta Sembiring Meliala, M.Sc., M.Sc., Ph.D, Lecturer of IDU National Security Faculty Study Program Rear Admiral of Indonesia Armed Forces (Ret.) DR. Surya Wiranto, S.H., M.H, Permanent Lecturer in Peace and Conflict Resolution Study Program

of IDU Major General of Indonesia Armed Forces (Ret.) I Gede Sumertha, PSC., MSc and Head of Indonesian Institute of Sciences (LIPI) Political Research Center Prof. Dr. Syamsuddin Haris, M.Sc, with moderator Lecturer in Peace and Conflict Resolution Study Program National Security Faculty of IDU DR. Ichsan Malik, M.Sc.

First presentation by Major General of Indonesia Armed Forces (Ret.) I Gede Sumertha ky, PSC., MSc with the topic "National Security Primary Strategy", in his presentation he explained the development of national security, several national security instruments include economics, political, energy and natural resources, humans, and defense, besides that also explained about national security from several countries and the dynamics of Indonesian security, besides that several crucial issues faced by the world today that have the potential to disrupt the security of the region and region include North Korea, the development of the South China Sea, trilateral issues of potential ISIS threats and the development of the Rohingya crisis.

The second presentation by Surya Prabowo, on the topic of “National Security and State Sovereignty”, in the conclusion of his father explained about globalization that was so fast in the world, changing the national security paradigm of each country, and changing the threat of military threats to non-military. Non-military threats result not only physically, but also non-physically, Indonesia is part of the world community, unable to escape the interdependence between countries and the changing dynamics of the environment. Changes in the security paradigm must be addressed wisely by the Indonesian people in the form of relevant Indonesian national security concepts.

Besides, this second resource was also explained. The existence of the National Security Law is an elaboration of the 1945 Constitution which is politically legal supported by the Government, so it must be supported by all parties in order to support the Indonesian constitutional system oriented to national goals and interests. Understanding the National Law must be viewed comprehensively in

an integrated and not fragmentary system and sectoral, so that it needs consolidation, harmonization and synchronization (vertical and horizontal) and adaptation to existing sectoral legislation after reform.

On the third presentation by the Head of the Indonesian Institute of Sciences (LIPI) Political Research Center on the topic “National Security in the Perspectives of State Sovereignty and National Identity” which explained about In order to realize a comprehensive and multidimensional concept of national security, a clear policy and regulatory framework is needed to cover integration, synergy and coordination security factor. That means that a National Security Act which can accommodate these needs needs to be issued immediately;

The closing presentation in this seminar by Prof. Andrianus Eliasta Sembiring Meliala, M.Sc., M.Sc., Ph.D., with the topic “National Security, State Sovereignty and National Identity (Public Service Perspective)”, which describes the State as being “present” through the performance of its infrastructure,

starting from institutions and policies, state apparatus (Civil State Apparatus, Indonesia Armed Forces/ Indonesia Police Forces), fixed and movable assets, visible and not, budgets, programs and activities, all of which are present in the form of public servants.

In addition, Good Governance in the Public Service was also encouraged to promote National Security by prioritizing general principles of good governance, consisting of Anti-Corruption, Transparency, Autonomy, Anti-Discrimination, Accountability, Fairness, Equality, Respect for Human Rights, Legal Compliance and Pro or Poor.

In this seminar, as well as the presentation of the resource persons, there was also a question and answer session providing opportunities for question and answer between participants and speakers, including the development of maritime intelligence, using Mines to improve national security, development of national security in the future.

SPECIAL REPORT

IDU Gathered with the Mass Media Crew

Rector of the Defense University (IDU) Lieutenant General of Indonesia Armed Forces Dr. Tri Legionosuko, S.IP., M.AP conducted a gathering with mass media people with the theme “Through the Spirit of the State Defense We Enhance the Good Relation and Synergy of IDU and Mass Media”, held at the Auditorium Hall of Multipurpose Hall, 2nd Floor of the State Defense Campus , Sentul IPSC Complex. Tuesday (12/3).

This gathering was opened by the Rector of IDU, represented by the Deputy Rector II IDU of General and Financial Major General of Indonesia Armed Forces Lasmono, M.Sc (Han), in The Rector’s remarks which he read, stated this activity is held in order to establish good relations and synergy between IDU and the press for achieving maximum and balanced Defense University publications in the context of positive reporting and at the same time socializing IDU’s programs, for example new student socialization activities that are open from March 1 to April 5 2019, graduating from the Defense Science Masters Postgraduate Program which would be held on March 21, 2019, and no less important in the near future

precisely in July 2019 IDU will again hold an international seminar on the Indonesia International Defense Science Seminar (IIDSS), and other IDU programs.

The mass media also has a very important role to disseminate information to the wider community and the role for National Defense, besides that the media has a role to unite the nation and educate the nation’s life which is part of realizing the spirit of the State Defense which is adjusted to their respective professions.

Further said, IDU was established in order to build a National Defense Human Resources involving all Indonesian people both Indonesia Armed Forces and Civil to understand and be aware of their rights and obligations in national defense. Through mass media, the existence and success of IDU can be published from its inception in 2009 until now in 2019 which has turned 10 years of age with such rapid development.

In his mandate, the Rector of IDU conveyed that the synergistic cooperation between IDU and the Mass Media that has been established so far can have a

positive impact on the development of National Defense, and to remain IDU’s partners and work together in building information that will educate all Indonesian people, so that Synergic, harmonious cooperation in order to create balanced, useful and responsible reporting.

Through this gathering, a profile of IDU on the background of IDU’s establishment, the study program organized by IDU was also introduced, the process of education and teaching at IDU to the facilities and facilities that support the learning process of teaching at IDU.

Through this socialization event that was carried out to mass media personnel by IDU Public Relations Head Sri Murtiana, S.Sos., MM, about Master of Defense Science scholarship program, mechanism for acceptance of Master Students of Defense Science, IDU’s Vision and Mission, study programs held by IDU, IDU’s collaboration with various universities both domestic and abroad, as well as research activities carried out by IDU students including Domestic Work Lectures (KKDN) and Foreign Work Lectures (KKLN).

SPECIAL REPORT

IDU students carried out Domestic Work Lectures (KKDN)

KKDN Defense University Faculty of Defense to Riau Regional Police

The Defense University Faculty of Defense Strategy Student Conducted the IDU Teaching Activities at State Senior High School 3 Banjarmasin in the KKDN framework as well as a manifestation of the Tridharma of Higher Education which includes Research, Education, and community service.

With the theme “Preparing the State Defense Cadres through the South Kalimantan HR development program in accordance with the

State High School 1 which was opened by the Principal Dra. Artini and attended by Permanent Lecturers of Marine Defense Strategy Study Program (Applied) of Defense Strategy Faculty of IDU First Admiral of Indonesia Armed Forces Dr. Drs. I Wayan Warka, M.M. IDU Teaching Program is a series in the context of KKDN of Defense Strategy Faculty activities held at State Senior High School 1 Banjarmasin with the theme “Establishing Millennials with State Defense Characteristics”. Aside from IDU teaching at Banjarmasin 3 High School, the Student of the Universe War Strategy Study Program (SPS)

foster a sense of love for the country which will ultimately strengthen the defense of the unitary state of the Republic of Indonesia.

KKDN Defense Management Faculty at the Riau Regional Police

The Defense Management Faculty student of the Defense University carried out KKDN through community service activities with the IDU Teaching program at State Senior High School 8 Pekanbaru Riau. The IDU Teaching Program with the theme “High School is the Pioneer of the Students of Productive Countries Creating Creative and Innovative Work in Building a Defense Economy in the Region”.

KKDN delegation Students of the Defense Management Faculty of IDU are headed by the Dean of the Defense Management Faculty of the Defense University Rear Admiral of Indonesia Armed Forces Sulistiyanto, S.E., M.M., M.Sc., P.S.C. accompanied by Deputy Dean of the Defense Management Faculty, Air Commodore of Indonesia Armed Forces Dr. Siswo Pudjiatmoko, S.E., MSi (Han), Secretary of Defense Economics Study Program, Faculty of Defense Management Dr. Supandi, S.Sos., M.M. and Secretary of Defense Management Study Program IDU Faculty of Defense Management Dr. Yusuf Ali, S.E., M.M.

The activists at State Senior High School 8 Pekanbaru Riau were held by the Secretary of Defense Economics Study Program of the Defense Management Faculty, Wednesday, (27/02). On this occasion a lecturer in Defense Economics of the Faculty of Defense Management IDU said that the purpose of IDU Teaching Program was included in the framework of the KKDN. Students of IDU’s Defense

economic potential of South Kalimantan”. KKDN of Defense Strategy Faculty of IDU group led by Dean of the Defense Strategy Faculty of Defense University Major General of Indonesia Armed Forces Dr. Hipdizah, S.Adm., M.Sc. held at State Senior High School 3 Banjarmasin. Wednesday (02/27).

In his speech, the Dean of the Defense University Faculty of Defense Strategy said that State Senior High School 3 was one of the 3 schools which were the IDU Teaching program’s objectives, the other two were State Senior High School 2 Banjarmasin and State Vocational School 1 Banjarmasin.

While IDU Teaching Program, Marine Defense Strategy Study Program students were held at Banjarmasin

also carried out the IDU Teaching Program at State Vocational School 5 Banjarmasin. The IDU Teaching Program activity was held with the theme: “With the State Defense We Improve the Discipline Attitude of the Young Generation as a Part of Love for the Motherland”.

Cohort 10 students from Universe War Strategy study program were held, at State Vocational School 5 Banjarmasin and attended by 300 students from 10th, 11th and 12th grade. The teaching and learning activities of the University were a community service program (PKM) and were part of the Tri Dharma College namely teaching and the development of service to the community, furthermore, it is hoped that this teaching can motivate students to defend the country and

Management Faculty were being held for the next few days. It was said that IDU Teaching Programs as a means to provide education to students about understanding of State Defense from a defense economic perspective.

The goal is that students understand the State Defense from an economic defense perspective and are expected to be able to apply it in everyday life.

Defense economy is a part of defense science that examines the processing of potential and utilization of human resources for the sake of economic and defense development in realizing people's prosperity and national security. Exemplified State Defense is not to be a combatant to become a military or carry a weapon. But carrying out the functions of each profession.

Including outstanding students in learning and working is a manifestation of State Defense. In the economic sector, State Defense can be done by becoming a good entrepreneur, not corrupt, creating innovation with the creativity that is owned to develop superior and sustainable superior business products. The Defense Economy Study program of IDU also invited large families of State Vocational School 8 to join IDU students.

IDU teaching program was also held at Pekanbaru State High School 1. Carried the theme "National Defense Education for Pekanbaru Youth

in Facing the Era of Industrial Revolution 4.0". Followed by students of X and XI grades. KKDN group Student of Defense Management Study Program of IDU led by Secretary of

Defense Management Study Program, Colonel Cba Dr. Yusuf Ali, S.E., M.M. held in the Hall of the State High School 1 Pekanbaru Riau. (02/27).

Principal of Pekanbaru 1 State High School Wan Roswita, M.Pd who expressed his gratitude to the IDU group who were willing to carry out the IDU Teaching Program activities at State High School 1 Pekanbaru. The Principal of Pekanbaru 1 State High School hopes that this activity can provide the maximum benefit to students, especially in terms of understanding the concept of State Defense and the application of the values of State Defense in the everyday lives of all the students.

Secretary of Defense Management Study Program introduced IDU to all participants of IDU Teaching Program activities, which then continued with the screening of IDU's profile video. This activity was then continued with the presentation of material on the concept of State

Defense by the Sea Major (P) Suyanto Day. In his presentation, Major Hari explained the foundation of the State Defense, the basic values of the State Defense, along with its application in daily life.

This activity was ended with online and offline games about State Defense which were enthusiastically welcomed by students of the Pekanbaru 1 State High School participating in IDU Teaching Program. This can be seen from the expressions of the students who showed happiness during the games.

In addition to the implementation of IDU Teaching Program Activities, Focus Group Discussion have also been carried out before. Organizational consolidation and acceleration of the rejuvenation of the second generation of palm oil plasma in Riau Province were followed by academics from the University of Riau, Plantation Agency, Indonesian Palm Oil Association (GAPKI) chairman and organizer of Association of Palm oil Farmers PIR (Aspekpir) Indonesia Riau Province.

KKDN of Defense Management Faculty was continued with a research visit to the Regional Police (Polda) of Riau Province. The group was led by Deputy Dean of the Defense Management Faculty, Air Commodore of Indonesia Armed Forces Dr. Siswo Pudjatmoko, S.E., MSi (Han), was received by Brigadier

General Pol. Drs. Wahyu Widada, M.Phil as Deputy Chief of Regional Police of Riau Province.

Deputy Chief of Regional Police explained about some of the problems faced by Riau Province, such as forest fires caused by the extent of peat lands in Riau. Therefore, the Deputy Chief of Regional Police hopes that IDU students can become young people who can build Indonesia into the dominant country in Southeast Asia in the future.

The Deputy Dean of the Defense Management Faculty conveyed that the Defense Management Faculty's aim was to obtain information about the circumstances and problems that occurred in Riau Province, as well as the efforts of the Riau Regional Police in maintaining vital national objects in Riau Province.

KKDN of Defense University's National Security Faculty to the Bali Regional Police

Students from the Defense University, National Security Faculty in the framework of the KKDN Conducted a State Defense Seminar with Udayana University with the theme "The Spirit of Succession the 2019 Democracy Party to Improve the Soul of Resilience and State Defense". In this activity, the IDU KKDN delegation were led by the Chair of the Institute for Research and Community Service (LP2M) of IDU Megy Magdalena L, S.H., M.H., acting on behalf of the Rector of the Defense University Lieutenant General of Indonesia Armed Forces Dr. Tri Legionosuko, S.IP., M.AP, the event took place at the Post-Graduate Building of Udayana University, Bali. Tuesday (26/02).

The Joint seminar of State Defense was a collaboration between Defense University and Udayana University, and as a moderator lecturer of Disaster Management

Study Program of IDU, Marine Colonel (KH / W) Christine S Marnani M.A.P.

The seminar presented two speakers, namely the Dean of the Faculty of National Security, the defense university, Air Vice Marshall of Indonesia Armed Forces Dr. Siswo Hadi Sumantri ST, M.MT., and Dean of the Faculty of Sciences, Udayana University Dr. Drs. I Gusti Putu Bagus Suka Arjawa, M.Sc., the seminar was opened by the Chair of the IDU Institute of Research and Community Service (LP2M).

The speech of the Rector of IDU, read by the Chair of the IDU Institute of Research and Community Service

(LP2M), said that the seminar was scheduled to be opened by the Rector of the Defense University, but because of the intense activities he could not attend.

In his remarks, it was stated that the routine Party of Democracy every five years was to elect state leaders, regional leaders and representatives of the people at the central and regional level seats which greatly influenced the spirit of national unity.

Some cases oriented to electoral problems that have often been witnessed on social media include individual persecution cases, hoaxes and natural disasters, cases of burning worship places, raising party flags before the campaign

period, pre-time contestant socialization, the use of religious facilities for campaigns. In general this makes the soul of the unity and unity of regions, regions and nations torn apart because each person does not trust each other and will defend his choice. This condition will be exploited by foreign parties and those who are lovers of national disintegration to divide the unity of our nation.

Udayana University Vice Rector for Student Affairs Prof. Dr. Ir. Made Sudarma, M.S, as a representative from Udayana University in his speech, he said that self-motivation greatly influences the progress

of the nation's decline, and the importance of the Archipelago's Insight and National Resilience in the face of Threats, Disorders, Barriers and Challenges (AGHT). In the implementation of the 2019 election, voting rights in elections must be used because it greatly affects the fate of the Indonesian nation in the future.

In his presentation the Dean of the Faculty of National Security, Defense University, Air Vice Marshall of Indonesia Armed Forces Dr. Siswo Hadi Sumantri ST, M.M. It is said that the development of State Defense awareness as an effort to build national deterrence faces multidimensional threats, students as defense human resources that

have Pancasila, as well as elections as a form of Democracy.

In addition, at the end of the presentation of the Dean of the Faculty of National Security, Defense University, giving attention was a form of State Defense. And State Defense can be done with various attitudes, one of it is creating peaceful elections, values of the State that must be instilled early, either through formal education or non-formal, State Defense not only taking up arms, every citizen must play an active role in accordance with his profession in national defense activities.

The second speaker of the Udayana University Dean said about "Successful Elections, National Defense Success" which is about Indonesian Resilience will be able to be created and maintained well if the community supports through political attitudes, social attitudes and cultural attitudes supported by existing basic capital, elections an orderly and capable public that respects the results of the elections in the 2019 election is the initial capital to create a strong national and state defense.

It is expected to be able to provide benefits and be able to provide constructive inputs in producing better formulations in taking the next steps, especially in overcoming the problems of the nation that are currently happening, with the hope that this nation will increasingly be better, more united in diversity, and protected from the negative influences of contemporary life developments that are contrary to Indonesian national culture and the ideology of the Pancasila. This joint seminar activity, would be able to provide positive benefits for the Defense University and Udayana University and all seminar participants for the integrity of the nation of Republic of Indonesia.

Before the State Defense seminar was closed, cooperation was carried out between the Defense University (IDU) and Udayana University.

The seminar was attended by representatives from Bali Regional Police, Chairperson of the Bali Regional People's Representative Assembly (DPRD), High Court, 163 Military Command / Wira Satya, Denpasar Denpasar Mayor and IDU National Security Faculty Students and representatives from twelve Faculties of Udayana University.

In addition to the seminar, in the context of this KKDN, the Students of National Security Faculty of the Defense University conducted a visit to Kintamani District to see the Practice of Pakraman Village in Bali. KKDN group Student of National Security Faculty of IDU led by Dean of the National Security Faculty Rear Admiral of Indonesia Armed Forces Dr. Siswo Hadi Sumantri, S.T., M.MT who was accompanied by Secretary of Peace and Conflict Resolution Colonel Inf Dr. Bambang Wahyudi, M.Si and Secretary of Doctoral Program of National Security held at the Kintamani District Office. Wednesday (02/27).

Student Visits from the National Security Faculty of the Defense University besides seeing the Practices of Pakraman Village in Bali are also devoted to meeting community leaders, traditional leaders, and the general public.

In his remarks the Dean of National Security Faculty of IDU said that it was hoped that this visit could become a means for Peace And Conflict Resolution students to see firsthand the practices of conflict resolution and the process of creating peace in the community so that the ability of Peace And Conflict Resolution students are not only understood the theory but also

could applied it to the community. In addition, students are expected to be able to see how the local wisdom in Bali can create peace.

The Dean of National Security Faculty advised that KKDN's research could be a means to study thesis making later and is expected to be a reference for IDU students.

Secretary of Peace And Conflict Resolution Study Program added that the visit to Kintamani Sub district was to support the study of Peace Study Program and Conflict Resolution with the theme of Local Wisdom as a means of preventing conflict in Bali. Incidentally, the local wisdom that was raised was Pakraman Village.

During this visit the Head of Kintamani Subdistrict Wayan Dirgayusa explained that Kintamani was the largest sub-district in Bali with 48 official villages and 62 Pakraman villages. The culture of Kintamani District is divided into 3 cultural regions. The Western region has a lot of ancient Balinese influences consisting of 30 Pakraman Villages. The rest, Pakraman village is in the east and south. In Kintamani there is a Bali Age village (Bali Gunung) that existed before the Dinas Village and Pakraman Village existed, the village was headed by Lulu Adat. Where in its implementation, Lulu Culture still follows the rules in Pakraman Village.

The activity continued with in-depth interviews with the Kintamani sub-district government, community leaders, traditional leaders, and the Kintamani community. After that, the Peace and Conflict Resolution delegation continued their activities towards Panglipuran Village to observe the success of the Adat Village (Pakraman Village) managing tourism in Bali.

KKDN of Defense Technology Faculty Defense University to Bali

Regional Police

The Defense Technology Faculty (FTP) student of Defense University (IDU) in the context of the Domestic Work Lecture (KKDN) conducted a Joint State Defense Seminar at the University of Tanjungpura (Untan) with the theme “Enthusiasm to Succeed 2019 Democracy Party to Enhance the Soul of Resilience and State Defense”.
